Assignment 2

Last Date for Submission: **07-June-2017**

1. Write about various ciphers.
2. Why do ciphers fail?
3. How do you achieve message confidentiality using symmetric and asymmetric encryption methods? (i.e come up with an idea as to how you can use the best of both these methods to achieve confidentiality)

Instructions

1. Your file should go in Session2/Assignment2/yourFirstName
